

# Market Saturation & Utilization State-County

## Data Dictionary

Variable Name	Term Name	Definition
reference_period	Reference Period	The selected one-year time period of observations
type_of_service	Type of Service	The selected health service area
aggregation_level	Aggregation Level	A variable classifying the observation as the "State", "County", or "Nation + Territories" level
state	State	Two letter abbreviation specifying state or territory, or --ALL-- to indicate "Nation + Territories" level
county	County	County name, or --ALL-- to indicate "Nation + Territories" or "State" level
state_fips	State FIPS	Two digit code to specify state or territory, or blank to indicate "Nation + Territories" level
county_fips	County FIPS	Three digit code to specify county, or blank to indicate "Nation + Territories" or "State" level
number_of_fee_for_service_beneficiaries	Number of Fee-for-Service Beneficiaries	Total number of FFS beneficiaries in selected geographic region for specified reference period and service area
number_of_providers	Number of Providers	Total number of providers in selected geographic region for specified reference period and service area
average_number_of_users_per_provider	Average Number of Users per Provider	The average number of users per provider in selected geographic region for specified reference period and service area
percentage_of_users_out_of_ffs_beneficiaries	Percentage of Users out of FFS Beneficiaries	The percentage of users out of FFS beneficiaries in selected geographic region for specified reference period and service area
number_of_users	Number of Users	The total number of users in selected geographic region for specified reference period and service area
average_number_of_providers_per_county	Average Number of Providers per County	The average number of providers per county in selected geographic region for specified reference period and service area. Only populated for Counties
number_of_dual_eligible_users	Number of Dual Eligible Users	The number of users qualifying for Medicare and any level of Medicaid coverage in selected geographic region for specified reference period and service area
percentage_of_dual_eligible_users_out_of_total_users	Percentage of Dual Eligible Users out of Total Users	The percentage of dual eligible users out of the total number of users in selected geographic region for specified reference period and service area

percentage_of_dual_eligible_users_out_of_dual_eligible_ffs_beneficiaries	Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries	The percentage of dual eligible users out of the total number FFS beneficiaries in selected geographic region for specified reference period and service area
total_payment	Total Payment	The total payment in selected geographic region for specified reference period and service area
moratorium	Moratorium	Indicator for moratorium status in selected geographic region for specified reference period and service area
number_of_fee_for_service_beneficiaries_dual_color	Number of Fee-for-Service Beneficiaries Dual Color	The color scale for Number of Fee-for-Service Beneficiaries in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
number_of_fee_for_service_beneficiaries_description	Number of Fee-for-Service Beneficiaries Description	The description for the range of Number of Fee-for-Service Beneficiaries calculated by quartiles and extreme values
number_of_providers_dual_color	Number of Providers Dual Color	The color scale for Number of Providers in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
number_of_providers_description	Number of Providers Description	The description for the range of Number of Providers calculated by quartiles and extreme values
average_number_of_users_per_provider_dual_color	Average Number of Users per Provider Dual Color	The color scale for Average Number of Users per Provider in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
average_number_of_users_per_provider_description	Average Number of Users per Provider Description	The description for the range of Average Number of Users per Provider calculated by quartiles and extreme values
percentage_of_users_out_of_ffs_beneficiaries_dual_color	Percentage of Users out of FFS Beneficiaries Dual Color	The color scale for Percentage of Users out of FFS Beneficiaries in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
percentage_of_users_out_of_ffs_beneficiaries_description	Percentage of Users out of FFS Beneficiaries Description	The description for the range of Percentage of Users out of FFS Beneficiaries calculated by quartiles and extreme values

number_of_users_dual_color	Number of Users Dual Color	The color scale for Number of Users in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
number_of_users_description	Number of Users Description	The description for the range of Number of Users calculated by quartiles and extreme values
average_number_of_providers_per_county_dual_color	Average Number of Providers per County Dual Color	The color scale for Average Number of Providers per County in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
average_number_of_providers_per_county_description	Average Number of Providers per County Description	The description for the range of Average Number of Providers per County calculated by quartiles and extreme values
number_of_dual_eligible_users_dual_color	Number of Dual Eligible Users Dual Color	The color scale for Number of Dual Eligible Users in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
number_of_dual_eligible_users_description	Number of Dual Eligible Users Description	The description for the range of Number of Dual Eligible Users calculated by quartiles and extreme values
percentage_of_dual_eligible_users_out_of_total_users_dual_color	Percentage of Dual Eligible Users out of Total Users Dual Color	The color scale for Percentage of Dual Eligible Users out of Total Users in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
percentage_of_dual_eligible_users_out_of_total_users_description	Percentage of Dual Eligible Users out of Total Users Description	The description for the range of Percentage of Dual Eligible Users out of Total Users calculated by quartiles and extreme values
percentage_of_dual_eligible_users_out_of_dual_eligible_ffs_beneficiaries_dual_color	Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries Dual Color	The color scale for Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
percentage_of_dual_eligible_users_out_of_dual_eligible_ffs_beneficiaries_description	Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries Description	The description for the range of Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries calculated by quartiles and extreme values

total_payment_dual_color	Total Payment Dual Color	The color scale for Total Payment in selected geographic region for specified reference period and service area which indicates the quartile or extreme value in selected geographic region for specified reference period and service area
total_payment_description	Total Payment Description	The description for the range of Total Payment calculated by quartiles and extreme values
number_of_fee_for_service_beneficiaries_change	Number of Fee-for-Service Beneficiaries % Change	The percentage change from the first to the most recent reference period for Number of FFS Beneficiaries
number_of_providers_change	Number of Providers % Change	The percentage change from the first to the most recent reference period for Number of Providers
average_number_of_users_per_provider_change	Average Number of Users per Provider % Change	The percentage change from the first to the most recent reference period for Average Number of Users per Provider
percentage_of_users_out_of_ffs_beneficiaries_change	Percentage of Users out of FFS Beneficiaries % Change	The percentage change from the first to the most recent reference period for Percentage of Users out of FFS Beneficiaries
number_of_users_change	Number of Users % Change	The percentage change from the first to the most recent reference period for Number of Users
average_number_of_providers_per_county_change	Average Number of Providers per County % Change	The percentage change from the first to the most recent reference period for Average Number of Providers per County
number_of_dual_eligible_users_change	Number of Dual Eligible Users % Change	The percentage change from the first to the most recent reference period for Number of Dual Eligible Users
percentage_of_dual_eligible_users_out_of_total_users_change	Percentage of Dual Eligible Users out of Total Users % Change	The percentage change from the first to the most recent reference period for Percentage of Dual Eligible Users out of Total Users
percentage_of_dual_eligible_users_out_of_dual_eligible_ffs_beneficiaries_change	Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries % Change	The percentage change from the first to the most recent reference period for Percentage of Dual Eligible Users out of Dual Eligible FFS Beneficiaries
total_payment_change	Total Payment % Change	The percentage change from the first to the most recent reference period for Total Payment
